DISC & TRACK NUMBER	track-2
CATEGORY	rock: "Let me here ya say YEAH?"

	POSSIBLE POINTS	SCORE	COMMENTS (OPTIONAL)
ELEMENT LEVELS	5	3	Intro guitar too low (see next section). Great snare sound, but snare drops out around 1:30 right after a fill. The fill @ 2:27 makes a spike that keeps the track from being normalized and again snare drops out a bit.
FREQUENCY BALANCE	5	3	While the overall track is very warm, the intro guitar is very thin and very low - this may have been fine when the guitar is part of the mix but not when opening the track. Centered around 770Hz, everything below needs to come up 9dB and everything above needs to come down 9dB.
IMAGE & PANNING	5	3	
DYNAMICS & AUTOMATION	5	3	
SPATIAL & DEPTH	5	3	
INTEREST EAR CANDY X -FACTOR	10	6	Overall, this track sounds good, is spectrally balanced, and is fun to listen too.

TOTAL SCORE	35	21
